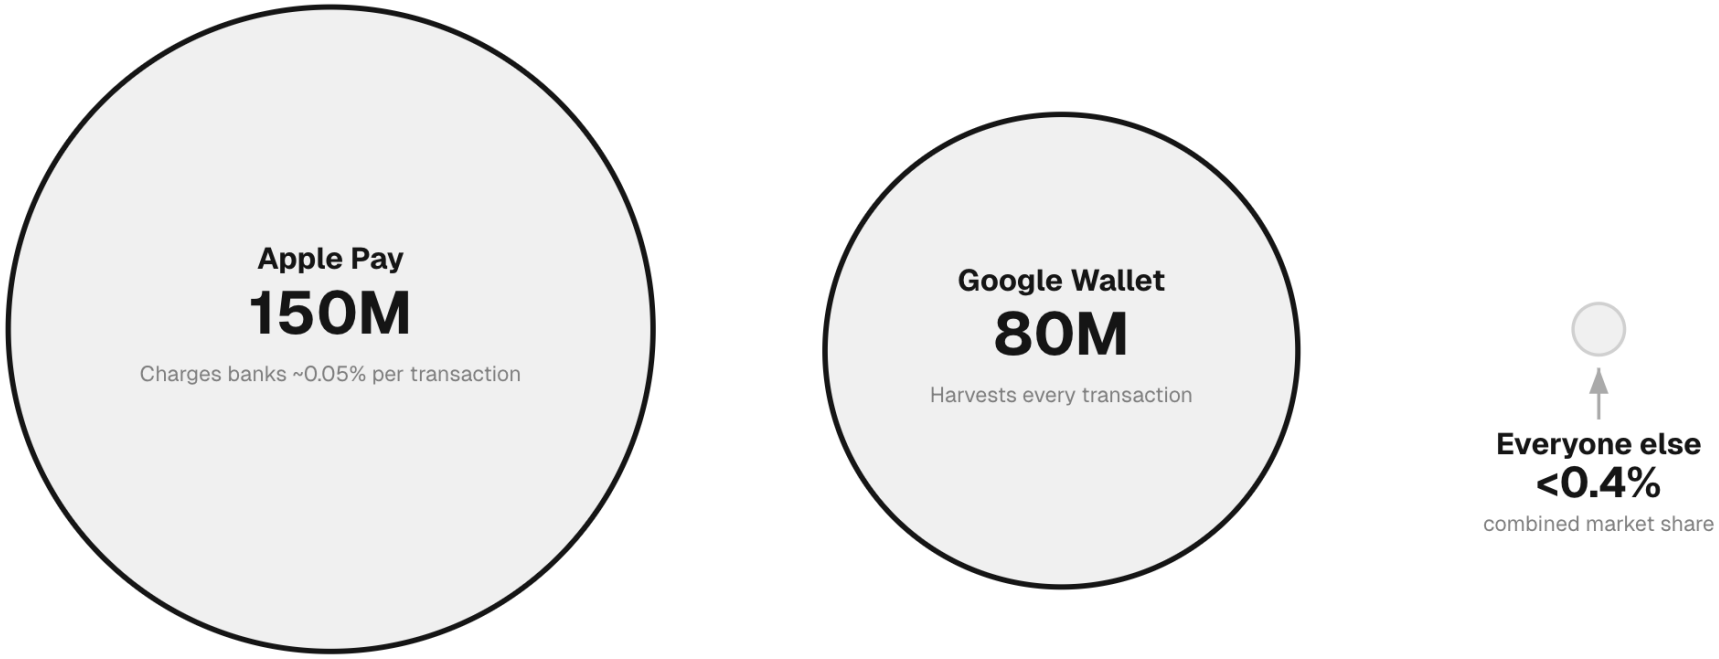
Europe reclaims tap-to-pay

The Problem

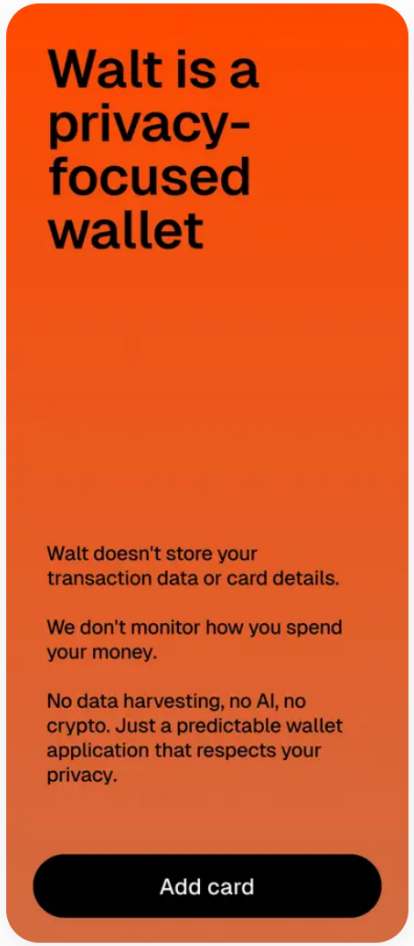
Tap-to-pay in Europe lives with Google and Apple



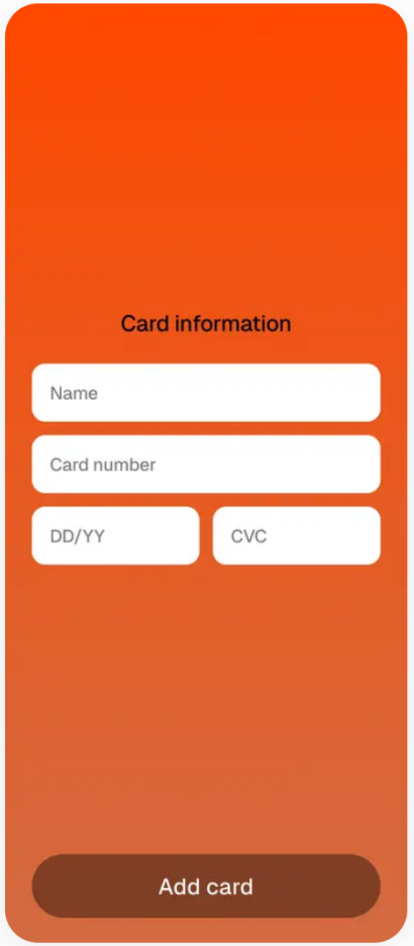
Sources: Flagship Advisory Partners, Worldpay, CoinLaw, StatCounter

Solution

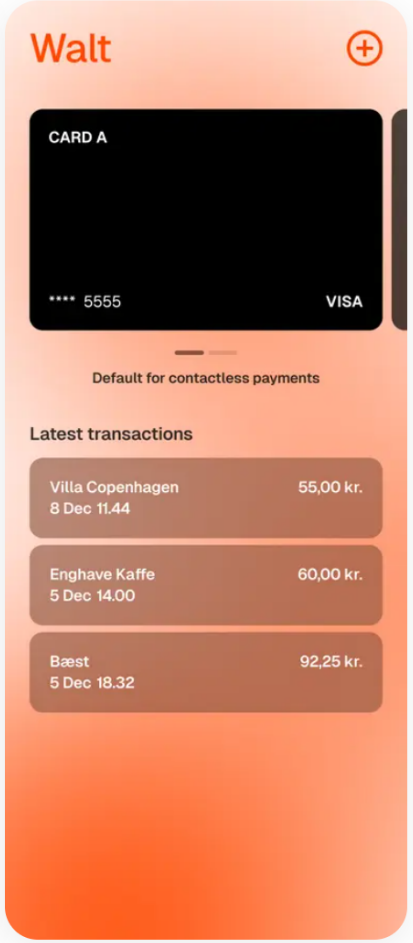
A European, privacy-first alternative to Apple Pay and Google Wallet



Download



Add card



Tap to pay

Privacy by design

No data collection, no ad profiling, no third-party sharing

Built for Europe

Founded in Copenhagen. No dependency on US infrastructure

Simple

One workflow, one price. Just tap-to-pay

Why Now?

July 2024

EU's EUDI wallet mandate forced Apple and Google to open their NFC APIs to third-party wallets.

January 2025: Apple and Google comply with mandate and expose APIs

Sources: European Commission, Case AT.40452, Regulation (EU) 2024/1183
